CX 2521 DM

**Terra Lux Marmo**

CX 3517 DM

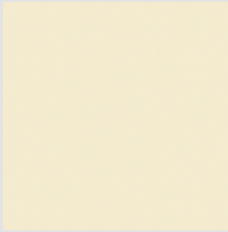

A close-up photograph of a marble surface with a complex, organic pattern. The primary color is a bright, clean white, which is intricately veined with various shades of gold and beige. The veins are not straight but flow in a dynamic, almost chaotic manner, creating a sense of movement and depth. Some veins are thin and delicate, while others are thicker and more prominent. The overall appearance is that of a high-quality, natural stone material.

**CT 8409 DNO**  
Premium White

A close-up photograph of weathered, bleached wood grain. The wood is heavily textured, with deep grooves and a mix of light tan and dark grey-blue tones, suggesting it has been exposed to water and sun. The grain runs vertically, with some pieces showing a more horizontal orientation. The lighting is dramatic, highlighting the rough, fibrous surface.

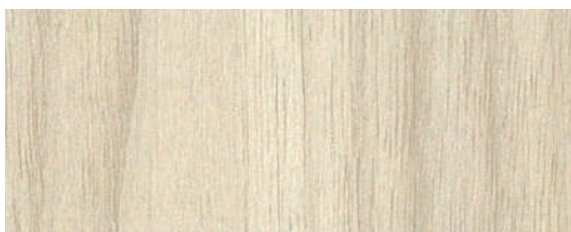

# WOODGRAIN

Our woodgrain design is the bridge between the wild and the refined, allowing you to live a lifestyle that's truly in tune with nature

# Carta Laminates Product Performance : Nema Standard

## PROPERTIES

## NEMA

## CARTA

### DIMENSIONAL TOLERANCES

Thickness	GB/T 17657-2103 Section 4.50	≤10%
Thickness Tolerance	GB/T 17657-2103 Section 4.50	≤10%
Squareness	Within 6mm	Within 6mm
Edge Straightness	1.5mm/m	1.0mm/m
Flatness	± 120mm	± 60mm
Light Resistance	Slight Effect	Slight Effect
Dimensional	2440 mm x 1220 mm	2440 mm x 1220 mm

### PERFORMANCE PROPERTIES

Cleanability of Surface (Cycles)	20 (Max)	16
Stain Resistance		
Reagents (1-10)	No Effect	No Effect
Reagents (11-15)	Moderate Effect	Slight Effect
Boiling Water Resistance	No Effect	No Effect
High Temperature Resistance	Slight Effect	Slight Effect
Liner Glass Scratch Resistance	<20/50/100/200gr Mass	<200gr Mass
Ball Impact Resistance	500mm	550mm
Dart Impact Resistance	200mm	200mm
Radiant Heat Resistance (Coil)	80 Sec	80 Sec
Dimensional Change (Machine Direction)	0.70% (Max)	0.60% (Max)
Dimensional Change (Cross Direction)	1.20% (Max)	1.00% (Max)
Room Temperature Dimensional Stability		
Dimensional Stability (Machine Direction)	0.60% (Max)	0.50% (Max)
Dimensional Stability (Cross Direction)	1.10% (Max)	0.95% (Max)
Wear Resistance	400 Cycles (Min)	>400 Cycles
Tensile Strength	≥58.8N/mm	No Requirement
Resistance to Surface	GB/T 17657-2103 Section 4.36	No Effect

### Carta Signature Texture Finishes

ST - Silky Touch	NW - Natural Wood
SK - Symmetric Knit	SW - Smoothened Wood
MT - Mortar Touch	B - Brushed (Satin, Metal)
BW - Bark Wood	G - Gloss (Mirror, Pearl)
CB - Coated Brushed	NR - Natural Rock
DM - Dry Matt	

### Carta Laminates Texture Finishes

T - Texture	NT - Natural Texture

F - Fine	
DM - Dry Matte	

As your safety and comfort are our top priorities, we refine our product innovation with international standardization. From the **Carta Signature** to the **Carta Laminates** collection, we pride ourselves on our unwavering commitment to delivering excellence.

Being Green Guard certified is one of our efforts to support sustainability in the environment.

**This is our commitment to put our customer first.**

A stack of four books is placed on a light-colored wooden table. To the left of the books is a potted plant with large, dark green leaves. The background is a soft, out-of-focus green wall. The text is overlaid on a semi-transparent white box at the bottom of the image.

## High Pressure Laminate Maintenance & Care

**High Pressure Laminate** are generally easy to maintain with a simple wipe using a damp cloth and mild soap over the surface. Make sure to wipe dry after each cleaning.

Difficult stains such as coffee or tea spill can easily be removed with a mild household cleaner or detergent. For a more persistence stain, baking soda or a warm 10% vinegar solution can be used - remember to wash them off with warm water and wipe dry. Undiluted nail polish remover or household bleach can be used if any of the above methods does not work. Apply them to the stain and let stand for 2 minutes before rinsing them with warm water and wipe dry.

### Precautions when handling & caring for High Pressure Laminate

- Never put hot cookware appliances directly on the countertop, as it may scar the laminates surface. Remember to always use a heat shield or trivet before putting them on the surface.
- High acidic and abrasive solution can damage laminate surface.
- Only use SOFT cloth/sponge/brush when cleaning the laminate surface.
- Never cut directly on the laminate surface, ALWAYS use a chopping board when using knives or sharp objects.
- To minimize scratching, especially on dark colour & high gloss surface, dont drag or slide objects when lifting or putting them on countertop.
- WARNING: Prolonged exposure to bleach or other strong household chemical will cause discolouration to the laminate surface.
- To avoid scratching on the surface, please do not remove the protective film until the whole fabrication & installation has been completed.
