DNO - Demi Natural Oak

“ Surface for Living ”

Reflects our belief that surface is more than a finishing touch. It's part of everyday life.

With thoughtful designs and reliable quality, Carta Laminates are made to balance function and aesthetics. Because for us, a surface is not just a layer. It is a foundation for living that brings warmth and character into every space.

Together, we bring surface to life.

Solid

A rich palette of colors is the key to unlocking the full spectrum of your interior lifestyle, creating endless possibilities for self-expression.

GREENGUARD

SGS

As your safety and comfort are our top priorities, we refine our product innovation with international standardization. From the Carta Signature to the Carta Laminates collection, we pride ourselves on our unwavering commitment to delivering excellence.

Being Green Guard certified is one of our efforts to support sustainability in the environment.

This is our commitment to put our customer first.

High Pressure Laminate Maintenance & Care

High Pressure Laminate are generally easy to maintain with a simple wipe using a damp cloth and mild soap over the surface. Make sure to wipe dry after each cleaning.

Difficult stains such as coffee or tea spill can easily be removed with a mild household cleaner or detergent. For a more persistance stain, baking soda or a warm 10% vinegar solution can be used - remember to wash them off with warm water and wipe dry. Undiluted nail polish remover or household bleach can be used if any of the above methods does not work. Apply them to the stain and let stand for 2 minutes before rinsing them with warm water and wipe dry.

Precautions when handling & caring for High Pressure Laminate

- Never put hot cookware appliances directly on the countertop, as it may scar the laminates surface. Remember to always use a heat shield or trivet before putting them on the surface.
- High acidic and abrasive solution can damage laminate surface.
- Only use SOFT cloth/sponge/brush when cleaning the laminate surface.
- Never cut directly on the laminate surface, ALWAYS use a chopping board when using knives or sharp objects.
- To minimize scratching, especially on dark colour & high gloss surface, dont drag or slide objects when lifting or putting them on countertop.
- WARNING: Prolonged exposure to bleach or other strong household chemical will cause discolouration to the laminate surface.
- To avoid scratching on the surface, please do not remove the protective film until the whole fabrication & installation has been completed.
